

Found in You

Andrea Hamilton

Verse 1:

Everywhere I look
I want to see You
Every word I say
I want to speak You

Pre-Chorus:

You must become greater,
I must become less

Chorus:

I want to get lost in Your majesty
I want to find all that You have for me
I want to forget all my falling,
Remember the promise of life You bring
So come to let Your love re-arrange my heart
To put You above every other part
I Don't need anything else at all:
I want to get lost and be found in You

Verse 2:

Every breath I take,
I want to breathe You
In all I do
I want to please You

Pre-Chorus

Chorus

Instrumental

Chorus:

I want to get lost in Your majesty
I want to find all that You have for me
I want to forget all my falling,
Remember the promise of life You bring
So come let Your love re-arrange my heart
To put You above every other part
Cause I don't need anything else at all,
I want to get lost and be found in You
