

Forever

Edison Glass

When I'm with you I find myself
I seem to lose him somewhere else
What is this about you
That makes me see? You never expected perfection
All you want is my affection
What is this about you
That makes me believe? Forever
We'll sing it out
Forever
This anthem
I've never lived until I've known your touch Forever
We will take this dance
Forever
In this romance
I've never lived until I've known your touch We're moved by the authenticity of
Your grace given so abundantly We're moved by the authenticity of
Your grace given so abundantly
What is this about you
That makes me believe? Forever
We'll sing it out
Forever
This anthem
I've never lived until I've known your touch Forever
We will take this dance
Forever
In this romance
I've never lived until I've known your touch The comfort is never absent from the need Forever
We'll sing it out
Forever
This anthem
I've never lived until I've known your touch Forever
We will take this dance
Forever
In this romance
I've never lived until I've known your touch
