

# Roulette

## Blueprint

Bet the black comes in red, crimes of passion rule my head  
I need you, you want him, dressed to kill we live in sin  
I know the game you play, I know it well  
You just keep on playin' when all the bets are down  
Roulette you're goin' round in a spin  
Caught up in a game you can't win  
Roulette, you're just a fantasy  
It's everything that you want it to be  
Play the numbers one by one, fire the shot and the damage is done  
Restless lovers pay the price, cheating hearts don't think twice  
When you make the rules no one can slow you down  
You just keep on waiting when you're on the prowl  
Roulette you're goin' round in a spin  
Caught up in a game you can't win  
Roulette, you're just a fantasy  
It's everything that you want it to be  
Roulette you're goin' round in a spin  
Caught up in a game you can't win  
Roulette, you're just a fantasy

It's everything that you want it to be  
Back door runner got away this time  
Leaves her mark at the scene of the crime  
Nothing matters, no faces, no names  
You're just a number, it's all the same  
You just love to play the game  
I know the game you play, I know it well  
You just keep on playin' when all the bets are down  
Roulette you're goin' round in a spin  
Caught up in a game you can't win  
Roulette, you're just a fantasy  
It's everything that you want it to be  
Roulette you're goin' round in a spin  
Caught up in a game you can't win  
Roulette, you're just a fantasy  
It's everything that you want it to be  
Roulette  
Roulette
