Time

L.A. Guns

Watch the seconds turn to hours
See the sunshine turn to shadows
It could be so easy
If I just had time
Baby please believe me
You're always on my mind
We could work it out
If we just had timeCan't stop the wheels are turning
Can't stop the fire from burning
Can't give when I should say
Can't take to try somebody
Can't stop the wheels from turning
Can't stop the fire from burning
Can't give when I should say
Can't take to try somebody
Yeah yeah yeah, yeah yeah
If I just had time
Well I think that I could make it right
If I just had timeYou're so kind-souled, you're so sweet
Makes me nervous when we meet
It could be so easy
If I just had time
Baby please believe me
You're always on my mind
It could be so easy
If we just had timeCan't stop the wheels are turning
Can't stop the fire from burning
Can't give when I should say
Can't take to try somebody
Can't stop the wheels from turning
Can't stop the fire from burning
Can't give when I should say
Can't take to try somebody
Yeah yeah yeah, yeah yeah
If I just had time
Well I think that I could make it right
If I just had time
