Black Death

Brocas Helm

Black death on the water
Black death in the air
Black death on the insects
Who nest in my hairBlack death all around us
Black death coming fast
Black death is the reason
That your kind won't lastRing around the rosie
Pocket full of posie
Ashes, Ashes
We all fall downBlack death all around us
Black death at my feet
Black death is the reason
It's unsafe to eatDon't you come around here
If your want to last
If you don't like it
We'll kick your bloody buttAround every corner
In every town
The feeling of death
It won't get me downI'll fight to the finish
I'll fight till I die
Black death is the reason
You all shall die
