U B (feat. Kris L'jean)

2sc

Verse 1

You are the one like my best friend
But i didnt see you
You would tell me all your secrets
Though i didnt believe you

Not like i do know i wouldnt go there
Saying i dont care but i was just scared
I had a treasure but wasnt aware
The potential there was rare

Pre Chorus:

Youâ€™re the one that made me want be something
Yeah I know it crazy want to be something? (do you ?)
Come into my place let me tell you something
I want everything wanna feel your loving (Let me tell you something)

Chorus:

(x2)
You
You be
You be important to my love

Verse 2:
You are the one yeah my weakness
The air is thin I would turn and breathe you
Every word you say is sweetness
To your grace there is not an equal

You only speak of the truth love you never lie
And when you tell me "I do " love will never die
Now itâ€™s no longer you but itâ€™s you and I
Me right here by your side

Chorus

Br:

Your welcome to my crib yeah your welcome the keys of my ride
You helped when no one did , yeah your love its makes me feel so alive

Chorus

End
