

# State of Grace

Steve Winwood

Sometimes your life can be sidetracked, getting lost in things you don't need

But we all lose direction in a world of greed

Some people's lives end in ruin, some people's lives never start

Someone knows what you're doing deep in your heart  
In the hour of need you stood ready, looked danger right  
in the face

Your heart is moved by the spirit when you're living

Living in a state of grace  
There's a world never ending, sorrow and pain don't exist

We can live there together, you can't resist  
Just when you think you can't take it, dreams disappear into space

Trust in your heart, you can make it, when you're living

Living in a state of grace
