

# Downtime

Usher

Everything you do is everything I know  
No need to pretend, we both know what you want  
Say you gotta good thing, he don't have to know  
Everything you and I do, only I love  
We could make this easy  
I know you don't need me  
Say that kind of thing  
It's more of a fling  
That's why when you leave I ain't only one comin' through  
Don't act like it's not you  
What I do on my downtime  
What I do on my downtime  
We connect, we wanna feel  
That shit don't come at me no  
But what you do in your downtime is  
And what you do in your downtime is  
That's everything I know  
Girl that's everything I know  
Yeah, yeah, that's everything I know  
That's the only thing I know Oh, oh, oh, oh Left the country just to spend the weekend here to fuck me  
What is not the only thing that's comin'  
All your friends are callin' you  
Like "OMG your such and such is lucky"  
It's touchin' my soul  
But little does anyone know, yeah  
I've been workin'  
I ain't perfect  
I don't need you to tell me it's yours  
Know what it is I adore  
And somethin' about it inspires me to hit it more  
You told me you comin', well shit I'll just buzz you in  
Keys are still under the mat by the door  
Ignore the mess  
My crib ain't the cleanest  
From company I had the evening before, yeah I ain't the only one comin' through  
Don't act like it's not you  
What I do on my downtime  
What I do on my downtime  
We connect, we wanna feel

That shit don't come at me no  
But what you do in your downtime is  
And what you do in your downtime is  
That's everything I know  
Girl that's everything I know  
Yeah, yeah, that's everything I know  
That's the only thing I know Oh, oh, oh, oh
