

# Forever Baby

[Juliana Hatfield](#)

He falls down drunk, I hold him up  
He drinks and I refill his cup  
Then I take him home and put him to bed  
He wakes me in the dead of night Lets me be his second sight  
To guide him when he's sleep walking  
Listen when he's sweet talking  
I see the end of the road in his eyes He's got a long way to go, I hold him like a loaded gun  
I know he might go off with anyone  
But I know he's only tryin' to have some fun  
He sees a couple of things in me Like how I'm not very hard to please  
It's really pretty easy  
I see my long lost home in his eyes  
He sees a nice hotel in mine, I'll stick it out forever babe If we keep coming back together maybe  
You'll start to see it like me, I'll stick it out forever babe  
If we keep coming back together maybe  
You'll start to see it like me I'll stick it out forever baby, I'll stick it out forever baby  
I'll stick it out forever baby, I'll stick it out forever baby  
I'll stick it out forever baby, I'll stick it out forever baby  
I'll stick it out forever baby, I'll stick it out forever baby  
I'll stick it out forever baby, I'll stick it out forever baby  
I'll stick it out forever baby, I'll stick it out forever baby
