Time Trap

Algebra The Band

It's barely your's on loan
What you think you own
The place that you call home
The ideas in your bones, in your bones
This would still feel dumb
Back where you're from
Do you, do you want to change your mind?
Do you want to change your mind?
'Cause you could never know that
In a time trap, in a time trap
Guess that's all fair now because

Guess that's all there ever was
Grey and sprawling
Save your crawling
'Cause you could never know that
In a time trap, in a time trap
Do you want to save your life?
Do you want to save your life?
'Cause you could never know that
In a time trap, in a time trap
