Undeniable Lies

Violet Moss

hang on the wire
slip away from you

we drift along the highway
fall and rise again

LOST AND SCARED

crimes against youth
safe resign from truth

framed, controlled by fools
who will stand for that

there's a space in the human race
what you give what you take
what you had to fake
thought the world is moving
round and round
a waste of time to recover the ground
you hide the crime from time to time
no dignity no self control you'll find
all and all are undeniable lies.
