

Lighted Up

Gabriel Mann

what comes to mind today
is where I was before
sad and lonely trying to stay so drunk
waiting for somebody to leave open some doors
Tuesday came and went as quickly as expected
didn't notice that I needed it to stay
and you know sometimes I need to be neglected
sometimes love looks good in grey
I believe somewhere there's a vision in the dark
I can't see unless it's you there with a spark
to keep me lighted up, keep me lighted up, keep me lighted up
lighted up.

well you're back in D.C.,
and I'm in Los Angelos again
the cold wind grips you like a fist
the spotlight here is not my friend
and I believe sometimes theres a need for seperation
and I can't see, I need to find another way
to keep me lighted up,
keep me lighted up, keep me lighted up
lighted up
hey

I believe somewhere theres a prison in the dark
and I can't see, unless it's you there with a spark
to keep me lighted up, hey hey hey hey hey hey
you keep me lighted up, lighted up
you keep me lighted up, lighted up
lighted up, you keep me lighted up
