

# **Starry Eyed**

## **Lana Del Rey**

Oh, oh, starry eyed  
Hit, hit, hit, hit, hit me with lightning  
Handle bars, and then I let go  
    Let go for anyone  
    Take me in, and throw out  
    My heart and get a new one  
    Next thing, we're touching  
You look at me it's like you hit me with lightning  
    Oh, everybody's starry eyed  
    And everybody knows  
    Oh, everybody's starry eyed  
    And my body goes  
    So we burst into colors  
    Colors and carousels  
    Fall head first  
Like paper planes and playground games  
    Next thing, we're touching  
You look at me it's like you hit me with lightning  
    Oh, everybody's starry eyed  
    And everybody knows  
    Oh, everybody's starry eyed  
    And my body goes  
    Next thing we're touching  
    Hit me with lightning  
    Oh, everybody's starry eyed  
    And everybody knows  
    Oh, everybody's starry eyed  
    And my body goes  
    Oh, everybody's starry eyed  
    And everybody knows  
    Oh, everybody's starry eyed  
    And my body goes
