Unstable

Anberlin

You came out of nowhere
But who could you hold wild horse unstable
Do you still do as you?re told
Bridge:
Think you?re wild and you?re free now
Think you can cover me, well save yourself
Pretend like you don?t do what you?re told
Chorus:
Come around, let me in
How can I talk you down from that ledge
Unless you let me in?
You heard when I called you
But you still lost your way
Are you able?
To do just what you?re told?
Taught me to trust now

Yet you have no faith
in yourself
Why can?t you believe in what you know?
Chorus:
Come around (darling)
Let me in
How can I talk you down from that ledge
Unless you let me in?
How can I talk you down unless you come around,
Come around, come around?
Come around, darling
Let me in
How can I talk you down from that ledge
Unless you let me in?
Come around
Let me in
I?ll talk you down from that ledge
Unless you let me in, lovely
