## Urban Species

I wanna be a rock star, but I ain't got what it takes  
Need the drive and the determination and lucky breaks  
I wanna be a rock star, yeah, but I ain't got the face  
Oh still I wanna be a rock star, but ain't got what it takes  
    Seeing my face up on the TV  
    Hearing my songs on the radio  
    People waiting all day in line to see me  
    Doing my pose for Rolling Stone  
    It's alright, yeah, it's alright, c'mon  
I wanna be a rock star, but I ain't got what it takes  
Need the drive and the determination and lucky breaks  
I wanna be a rock star, yeah, but I ain't got the face  
Oh still I wanna be a rock star, but I ain't got what it takes  
    Living lifestyles of the rich and famous  
    Turning all heads in the music scene  
    Flying in my own jet plane to Vegas  
    I'm riding in a big black limousine  
    It's alright, said, it's alright  
I wanna be a rock star, but I ain't got what it takes  
Need the drive and the determination and lucky breaks  
I wanna be a rock star, yeah, but I ain't got the face  
Oh still I wanna be a rock star, but I ain't got what it takes  
    No, I ain't got nothing, but to you I'm something  
    Something so much more  
    It's alright, it's alright  
    Yeah it's alright, it's alright  
I wanna be a rock star, but I ain't got what it takes  
Need the drive and the determination and the lucky breaks  
I wanna be a rock star, yeah, but I ain't got the face  
Yeah, still I wanna be a rock star, but I ain't got what it takes  
    You know I wanna be a rock star  
    But I ain't got what it takes  
    Oh I said, "I wanna be a rock star  
    But I ain't got what it takes"
