

# Way Back Home

## Yodelice

On my way back home  
I remember all my hopes  
I was just a kid  
And life was just a game  
An old man said "Off you go" Far away from home  
Was the country with no sun  
I was just a kid  
But food was just hard to get  
Old man said "Be a man my son" You're the only game I'd love to live again (x2)  
Fill your eyes again my love without a name  
When love was just a game I've been working hard in the city of (cold blood)  
I was just a slave and it was hard to save  
But your love was in my heart As i walk back home  
I remember all your songs  
I was just a boy and love was just a game  
Now i want to be your man You're the only game I'd love to live again (x2)  
Fill your eyes again my love without a name  
When love was just a game  
(twice)(bridge) You're the only game I'd love to live again (x2)  
Fill your eyes again my love without a name  
When love was just a game  
(twice)(bridge) Fill your eyes again my love without a name  
When love was just a game
