Best Friend

Rose Falcon

The wind is whispering in my ear
The clock is ticking can you hear
The clouds are rolling by

How could anybody die
Beneath this periwinkle sky
I was too young to know her then
She would have been my friend
My best friend

The sun is shinning on my face
The world is such a pretty place
Bees and Butterflies

How could anybody cry
Wish that I could have said goodbye
If I could see her again
She would be my friend
My best friend

All I have is photographs
Put on her wedding ring
Put in a tape of lullabies
The ones she used to sing to
To me
Don't cry
Baby

How could anybody die
Beneath this periwinkle sky
I was too young to know her then
She would have been my friend
My best friend

How could anybody cry
Wish that I could have said goodbye
If I could see her again
She would be my friend
My best friend
