

# We Can Do What We Want

## Drenge

About to call all my friends like  
Like you said, we gotta get away  
From living with the way what we brag  
We know what they brag on the back of our heads  
We can do, we can do  
We can do what we want

We like Bonnie and Clyde, but without any pride  
We're gonna make out in the shootout on the day that we die  
We put our name in the course  
We put our lives on the line  
We can do, we can do  
We can do what we want

Thought of living, I'm living  
If you give me your name  
And if you give me some money  
I can tell you made it  
We're steady quitting  
We can do, we can do  
We can do what we want

And we'll have to see knocks  
If I don't hit or swear it  
To go back where I wanted  
Whenever I needed it  
We can do, we can do  
We can do what we want

And no one tells us we're wrong  
And no one tells us when to stop  
And no one takes a calling  
No one's saying or has the guts  
To call us up  
I go anywhere I like to go  
I do what I want to do  
I ain't the same as you

We can do what we want
