

We Remember

Newsboys

How could we forget
When You touched the earth on that starry night
Angels sang glory to God on high
We rememberHow could we forget
The moment the water became wine?
Stories of men leaving all behind
We rememberThe story burns upon our hearts
A beautiful and binding scar
Forever we will
Forever we will think of YouWe remember
We remember You, O Lord
We remember
We remember You, O LordHow could we forget
There in the garden You cried for it?
The city that cursed You and turned You in
We rememberHow could we forget
Death has no power and we are free
The good thought of us there on Calvary
We rememberThe story burns upon our hearts
A beautiful and binding scar
Forever we will, forever we will think of You
Oh, think of YouWe remember
We remember You, O Lord
We remember
We remember You, O LordOh, the things that You have done
And great things You've yet to do
Oh, Jesus, we remember YouHow could we forget
The moment Your love rolled the stone away?
Our hearts were opened, our lives were changed
We rememberHow we could forget
The promise of hope and that trumpet sound?
We'll see Your glory roll back the clouds
We rememberWe remember
We remember You, Holy Lord
We remember You, our King
We remember You, the Son of God
Who came to set us free
