Key to the City

Jimi Blue

I got a key to the city
I got a key to the city
I got a key to the city
I got a key to the cityI got my home boys with me, my home girls with me
Come with me, I got the key to the city
Ay, cause I got it like that
I got it made like that
Fresh kicks on, air force ones
Swoosh on the side, swoosh on the tongue
Ice cream design, yeah that's mine
Dress to impress, now let's rockRolling down the window
Too hot for air conditioner
But I got the sound
I want the whole world to listen to
Hey little mama won't you join me?
You're looking kinda lonely
It's just me, my brother and my homies
Why don't you put it on meAll my people from the roof to the floor now
Come and grab what you came here for now
Take a look at this, and let's get it on now
I got the key to the city
All my people from the roof to the floor now
Come and grab what you came here for now
Take a look at this, and let's get it on now
I got the key to the cityI've got a lot of things to show, so here we go
Big mouth, clean shirt, dirty mind, now you know
Stick around, let me draw some attention
Another level, another dimension
I shine, you shine and I'll find
A pretty shiny way to make you mine, you know
Don't you know, haven't you heard about it
Acting out and shit and making you mad about itCome closer, get nasty
If you wanna touch this don't ask me
Feel free baby, let loose
We got the gimp plus we got the juiceAll my people from the roof to the floor now
Come and grab what you came here for now
Take a look at this, and let's get it on now
I got the key to the city
All my people from the roof to the floor now

Come and grab what you came here for now
Take a look at this, and let's get it on now
I got the key to the cityFrom the window to the wall
You can't get away, you've got to get down
You can't get away, you've got to get down
From the window to the wall
You can't get away, you've got to get down
You can't get away, you've got to get downAll my people from the roof to the floor now
Come and grab what you came here for now
Take a look at this, and let's get it on now
I got the key to the city
All my people from the roof to the floor now
Come and grab what you came here for now
Take a look at this, and let's get it on now
I got the key to the cityI got the key to the city
I got the key to the city
I got the key to the city
I got the key to the city
