

# I Will Bend You

Chelsea Williams

Break me in two, into you  
Even though you  
Take me for a fool  
I will bend you  
I will bend you

Cut your life into a photo book  
Is it what you always hoped it would be?  
Black the lights  
Watch it on a TV screen  
Is it what you always thought it should be?

Iâ€™ll wait for the truth, wrapped in blue  
Even though you  
Take me for a fool  
I will bend you  
I will bend you

Cut your life into a photo book  
Is it what you always hoped it would be?  
Black the lights  
Watch it on a TV screen  
Is it what you always thought it should be?

I will bend you  
I will bend you  
Cut your life into a photo book  
Is it what you always hoped it would be?  
Black the lights  
Watch it on a TV screen  
Is it what you always thought it should be?
