

# I Get Along

## Pet Shop Boys

Feeling like Im stuck in a hole  
Body and soul, while youre out of control  
Now I know why you had to go  
Well, I think we both know why it had to be so Ive been trying not to cry  
When Im in the public eye  
Stuck here with the shame  
And taking my share of the blame  
While making sudden plans  
That dont include you I get along, get along  
Without you very well  
I get along very well Now I know youd much rather be  
With rock royalty instead of someone like me  
The big boys are back And we need them, you said  
Think it was something youd read  
And it stuck in your head Even though I dont suppose  
Thats as far as it goes  
Youve got quite an appetite  
For being wronged and in the right  
Well, from now on it wont affect me I get along, get along  
Without you very well  
I get along very well The morning after the night before  
Id been alerted to your lies  
I phoned you up, your calls were all diverted  
Took a long time to track you down Even then you were defiant  
Its not what you think it is, you said  
And proceeded to deny it So I lost my patience at last  
And it happened so fast  
You belong in the past Ive been trying not to cry  
When Im in the public eye  
Stuck here with the shame  
And taking my share of the blame  
While making sudden plans  
That dont include you I get along, get along  
Without you very well  
I get along very well
