

Reptile Pilot

Randall Bramblett

Animals with the craving to be angels
Angels, but we can't get past
Bein' animals with dreams of flyi'n
I got a reptile pilot in my aeroplane Different but we're all the same
Rise up and fall down again
People I want to keep on flyin'
I got a reptile pilot in my aeroplane You know I'm smart as a whip I got my degree
Dumb as a brick I can't really see
What's right here in front of me
Sharp as a tack I'm a bootstrap millionaire
Blind as a bat in the sun and I don't even care My doctor told me you're above my raisin'
But you know that I've always been crazy 'bout you
I got juices flowin' and genes that won't listen
I got children all over the place
That say they don't even miss me
