

Understand

[nickasaur!](#)

I understand
that you don't understand
everything I touch
seems to get out of hand
if you want space
I guess i'll fly to the moon
then fall back to California
25 after noon I'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to you I understand
that you don't understand
what I'm feeling inside
isn't visible
I'll try and I'll try
and I'll try again
but no matter what I do
I wont be visible
to you, for you
i'll pack my bags and
I'll never look back
to you, for you
I'll put the pedal to the medal
down highway 405 I understand that
you don't understand
everything I touch
seems to get out of hand
if you want space
I guess I'll fly to the moon
then fall back to California
25 after noon I'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to you everything I touch
seems to get out of hand everything I imagined

didn't go as planned I wanted some velvet
but got some cotton these cold winter nights
should be forgotten but you, only you
could hold me back but you, only you
could manage to keep your head up only you
but you
for you
to you I understand
that you don't understand
everything I touch
seems to get out of hand
if you want space
I guess i'll fly to the moon
then fall back to California
25 after noon I'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to you I understand
that you don't understand
everything I touch
seems to get out of hand
if you want space
I guess i'll fly to the moon
then fall back to California
25 after noon I'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to you...
