What I Need

Crystal Waters

I said I'm tired and lost
I said I'm sick and tired
I'm tired of feeling the sameWell, I've been searching
Been looking so long
Forgot what the hell
What I was looking forUptight, nothing right
Can't sleep, can't eat
All night in bed I cry
Need somebody by my sideI feel my heart and soul
I feel the beat
I wish someone would give me
What say? What say?What I need, I need
What I need, I need
I need something to come over me
Lift me up and set me freeSomeone who can give me
What I need, I need
What I need, yeahI said I'm lonely
And I don't believe
I've been waiting long
For someone to believe inBut I been talking
Been talking so long
I forgot what the hell
What I was talking 'boutI'm uptight, nothing right
Can't eat, can't sleep
All night in bed I cry
Need somebody by my sideI feel my heart and soul
I feel the beat
I wish someone would give me
What I say, what I say
What I need, I need
What I need, I needI need something to come over me
Lift me up and set me free
Someone who will give
What I need, I need
What I need, I needI need something to come over me
Lift me up and set me free
Someone who will give
What I need, I need
What I need, I needI said I'm uptight, nothing right

Can't eat, can't sleep
All night in bed, I cry
Need somebody by my sideI feel my heart and soul
I feel the beat
I wish someone would give me
What I say, what I sayI said I'm uptight, nothing right
Can't eat, can't sleep
All night in bed, I cry
Need somebody by my sideI feel my heart and soul
I feel the beat
I wish someone would give me
What I say, what I sayI said I'm uptight, nothing right
Can't eat, can't sleep
All night in bed, I cry
Need somebody by my sideI give my heart and soul
I give 'em me
I wish someone would give me
What I say, what I sayWhat I need, what I need, I need
I need something to come over me
Lift me up and set me free
Someone who will give
What I need, I need
What I need, yeahI need, what I need
I need, I need
What I need, I need
I need, I need
What I need, I needI need, I need
What I need, I need
I need, I need
What I need, I need
