

# Come With Me

Brian McComas

You say you want a lover with a sense of danger  
Come with me  
I got some Willie Nelson in my Cd changer  
Come with me  
If you think I'm tryin' to steal your heart  
Baby,give it some time  
It could be that we might find out  
It's you who's stealin' mine  
Come with me let's hang out  
Let's shout from some rooftops  
And run through some raindrops  
And make love and don't stop  
Who knows where we'll end up  
Who cares just come with me  
You say you want somebody just as wild to run with  
Come with me  
Someone that you know you're gonna feel one with  
Come with me  
Girl,you know I'm taken by your confidence  
It's a beautiful sight  
When I see what I want,I got right after it  
And that's what I'm seeing tonight  
Come with me lets hang out  
Let's shout from some rooftops  
And run through some raindrops  
And make love and don't stop  
Who knows where we'll end up  
Who cares just come with me  
Baby,come with me  
Oh baby,come with me let's hang out  
Let's shout from some rooftops  
And run through some raindrops  
We'll make love and won't stop  
Who knows where we'll end up  
And who care just come with me  
Come on,baby  
Oh baby,come with me  
Come with me,oh yeah  
Oh baby come with me

Come with me,come with me
