

Worthy to Say

Nickelback

They usually come around about 10 o'clock
You can hear em'
You can tell them by the way they knock
Somebody said the other one had a badge
Who told ya? Who told ya?How 'bout if I stay and you run away
Well, come on back and try to get some today
Well, somebody's gonna do it again
Gonna make me turn against all of my friends,
So you better have something damn worthy to sayThey're growin' dope everywhere around the block
You can smell it
You can tell by the way we talk
Somebody stole five for gasoline
Who told ya? Who told ya?How 'bout if I stay and you run away
Well, come on back and try to get some today
Well, somebody's gonna do it again
Gonna make me turn against all of my friends,
So you better have something damn worthy to sayI'll never do it again
(No I won't)
Let's settle it
(We don't)
I can't afford my life 'cause I'm spendin' it
Since you got just what you wantedWe never do anything anymore
One on the telephone, and one on the door
Somebody said revenge was served sweeter cold
I told you, I told youThey're growin' dope everywhere around the block
You can smell it you can tell it by the way they talk
Somebody stole five for gasoline
Who told ya? Who told ya?How 'bout if I stay and you run away
Well, come on back and try to get some today
Well, somebody's gonna do it again
Gonna make me turn against all of my friends,
So you better have something damn worthy to sayI'll never do it again
(No I won't)
Let's settle it
(We don't)
I can't afford my life 'cause I'm spending it
Since you got just what you wantedI'll never do it again
(No I won't)
Praise myself

(I don't)
I can't afford my life 'cause I'm spending it
Since you got just what you wanted
What you wanted, what you wanted
What you wanted
