

# Guns Of '96

## Down By Law

Guns of '96, the guns of '96

The ones that never miss

96 guns in the schoolyard

There's a mama with a broken heart  
Wand they promise in november  
But it's broken in december

The man said boy things will change this year

Boy let me tell you crystal clear  
That man is far away from here  
And I don't want to talk about it

Or hear another word about it

Year of the rat?It's the year of the gun

Living in tinsletown, usa!

Guns of '96

Now it's fully automatic  
Just one word, he's gonna, let 'em have it  
'96 palm trees waved above the riot

Now everybody wants to try it

Hey, brother can you spare a dime  
Has been replaced with a gleaming shine  
With a point 44 and a point 45

Tough kids walk the street tonight

Shadows beneath a neon light  
If you got a six-shooter will you feel alright ?  
And the man in the blue box

Stands above the fray

But you'd better lie low  
Or you'll be coming home the horizontal way  
Tough kids walk the street tonight

Shadows beneath a neon light

They got a six-shooter and they feel alright
