

Play Me

Kirko Bangz

(Chorus)

Why the fuck you tryna play me?

Fuck you tryna play me?

And girl just cause we fuckin

That don't mean that we..

Why the fuck you tryna play me?

Why the fuck you tryna play me?

And girl just cause we fuckin

That don't make you my lady

(Verse)

Why the fuck you tryna play me?

Fuck you tryna play me?

You act like you my nigga

But I know you niggas shady

Why the fuck you tryna play me, dawg?

I ain't got no time to sit around and play with yall

You hate cause I made it dawg

I guess the right thing for me to do right now is to wait on yall

Naw fuck that I'mma run up in this motherfucker with my hands up

With my hands up, making all these motherfuckers put they hands up

If they ask for a nigga from a ghetto motherfucker that'll kill mother fuckers I'mma stand up

I know some girls that say they can't...

I know some girls that say they can't stand us

But it's because when we met, we fucked

And every time they call I don't answer

Don't play me

Cause you know if I was there right now bitch you'll try to see me

And yeah I fucked your friends and your fuck ass man wanna be me

And Stacy I used to love her

She was there before I blew up

But I guess I

I just been gone too long

Or I guess I been holding on too long

Or maybe I been puttin me on too long

Or whatever it is or what it may be

You got a man or I been actin shady

I enjoyed the moments sayin girl you made me smile

And just wish that you was here with me right now

Naw really I'm just pissed caused you ain't down

Like you said you would like you said you would

And I fucked it up like you said I would

And I know I would but

(Chorus)

Don't be trynna play me

Don't be trynna play me

Say don't be trynna play me

Don't be trynna play me

(Verse 2)

Uh, And my family, I love family

But the word mean more, it's embarrassing

They done dropped my name

Dropped my name

Talking bout that I'm about to drop that change

I'm the same old nigga, got the same old digits

But everybody bouta make me change on niggas

Change on niggas, change on niggas

Change on niggas

And it's funny how I made it and these people steady calling

Same niggas didn't know me till a nigga started balling

I just spent ten in the strip club

Walking today, and these bitches acting like they don't know me

Know me

I think my new bitch really want me

But she with a nigga I ain't trippin cause her homie

Know she wanna fuck, I ain't really wanna fuck

Then the bitch walked said

(Chorus)

Don't be trynna play me
