

L.S.D.

Mario

(Bridge)

Put it down like you

No one put it down like you

No one put it down like you

No one put it down like you(Chorus)

Don't be scared to put it right there on the tip of my toes, baby

I know you're not afraid of that

Love, sex and drugs

Don't be scared to put it right there on the tip of your toes, baby

I know you're not afraid of that

Love, sex, and drugs(Verse)

I know you love the way that I lie

I can tell you want one

Stumbling from all of them drinks

I know you're tryna do what I'm thinkin

Ah ah ah ah

You're like marijuana, no lie

And I just gotta get my high

I'm addicted to you right

And you have that pure like cocaine

Got me blown away

Don't take what I say to the head

I'll tell you now(Pre-Chorus)

No one put it down like you

No one put it down like you

No one put it down like you

No one put it down like you(Pre-Chorus)

No one put it down like you

No one put it down like you

No one put it down like you

No one put it down like you(Chorus)

Don't be scared to put it right there on the tip of my toes, baby

I know you're not afraid of that

Love, sex and drugs

Don't be scared to put it right there on the tip of your toes, baby

I know you're not afraid of that

Love, sex and drugs(Verse)

Leanin all of your life, we ain't never sober

Rollin, sweatin in them sheets, I know it's getting too deep

And I got that heavy and no lie
Up and down our drugs to get high
Yea I'm addicted to you right
And you have that pure like cocaine
Got me blown away
Don't take what I say in vain
I'mma tell you why(Pre-Chorus)
No one put it down like you
No one put it down like you
No one put it down like you
No one put it down like you(Pre-Chorus)
No one put it down like you
No one put it down like you
No one put it down like you
No one put it down like you(Chorus)
Don't be scared to put it right there on the tip of my toes, baby
I know you're not afraid of that
Love, sex and drugs
Don't be scared to put it right there on the tip of your toes, baby
I know you're not afraid of that
Love, sex, and drugs(Bridge)
No one put it down like you
Put it down like you
No one put it down like you
Put it down like you
Put it down like you
No one put it down like you(Pre-Chorus)
No one put it down like you
No one put it down like you
No one put it down like you
No one put it down like you(Pre-Chorus)
No one put it down like you
No one put it down like you
No one put it down like you
No one put it down like you(Chorus)
Don't be scared to put it right there on the tip of my toes, baby
I know you're not afraid of that
Love, sex and drugs
Don't be scared to put it right there on the tip of your toes, baby
I know you're not afraid of that
Love, sex, and drugs
