

# If We Look At It This Way

[Whitney Wiatt](#)

Stars and the open air, are you there?  
There's something you never make quite clear  
I've had my telescope out for years,  
I know that there's something out there somewhere, But where do I begin I'm sick of it  
Do you understand just a little bit  
Crazy how it works now, isn't it?  
I'll be close at hand, If we look at it this way it doesn't seem so bad anyway,  
Two can play at this game that way we can be together everyday,  
And knowing me I'll bend the rules and break,  
If we look at it this way. Caught in a tidal wave, I'm still here,  
The current has swept my love from you dear,  
I'm diving into the sea to see you,  
I'll take a breath of air when I'm there, But where do I begin I'm sick of it  
Do you understand just a little bit  
Crazy how it works now, isn't it?  
I'll be close at hand, If we look at it this way it doesn't seem so bad anyway,  
Two can play at this game that way we can be together everyday,  
And knowing me I'll bend the rules and break,  
If we look at it this way. ohhhhhh Maybe it's predictable  
But I know that in the end  
We'll both end up so miserable  
So lets just stop pretending If we look at it this way it doesn't seem so bad anyway,  
Two can play at this game that way we can be together everyday  
If we look at it this way it doesn't seem so bad anyway,  
Two can play at this game that way we can be together everyday,  
And knowing me I'll bend the rules and break,  
If we look at it this way,  
I'll see you with me.
