Sweet Love

Prezioso

I was lost in the rain
Look at heaven call an angel to guide my way
See your face hear you say
All your sadness is a million miles away
With your love I feel safe
Come inside and lead me out of my hiding place
Take my life take my pain
Hold me close and never leave me alone againI don't mind what they do to me
Just as long as you're with me
I can't hide what you mean to me
And the magic that you've brought into my lifeYou're giving me your sweet sweet love
Giving me your sweet sweet love
I've been waiting all my life for you my girl
You're giving me your sweet sweet love
You're giving me your sweet sweet love
I've been waiting all my life for you my love!
