

When You Open Your Eyes (feat. Sam Palladio)

Nashville Cast

When you close your eyes

You can only go back

To the place in your mind

Where it all goes off track

Staying up all night

Staring at the ceiling fan

Round and round you goBreathe, let it all go by

Breathe, I'm always by your side

Lean on me now (lean on me)

I'll still be here

When you open your eyesWhen the sun breaks through

And you're feelin' strong

When you give your best

But it still goes wrong

Either way I'll always be your home

Through the highs and lows

Up and down we goBreathe, let it all go by

Breathe, I'm always by your side

Lean on me now

I'll still be here

When you open your eyesWhen you open your eyesBreatheBreathe, let it all go by

Breathe, I'm always on your side

Lean on me now

I'll still be here

When you open your eyesWhen you open your eyes

When you open your eyes
