

So In Love

StateLine

Lyrics of About Love by Stateline

Hey I ain't no one and I don't play no games

With people's hearts

Just a man finding love in this crazy world of life

Running through the dark

Trying to find a friend to hold onto

And I know you lie and I'm not the only

One that you love

If you knew about love why would you be

Wasting your time

Lying to me about love about love

So don't point at me with you're jealous

Tangled heart

Hey I know what's right and I know what's wrong

With my heart

It needs love sweet love pure honest peaceful love

Cause I know you lie and I'm not the only one

That you love

If you knew about love why would you be

Wasting your time

Not trusting me about love about love
