Upside Down

A.J. Croce

You say, you found the road to Heaven but you dont fly
You say, its inner peace that gets you high
You say that you dont need emotion, I wonder why
Is it just too hard for you to cry?What you need to do
Is change your point of viewTurn it upside down and hold on tight
Turn it upside down, know wrong or right
Turn it upside down, I think youll find
On the other side, its upside down
On the other side, its upside downSee the storm around us raging, and you'll stay dry
As if the laws of nature dont apply
We see that nothing lasts forever and good things die
Still it seems to come as a surpriseWhat you need to do
Is change your point of viewTurn it upside down and hold on tight
Turn it upside down, know wrong or right
Turn it upside down, I think youll find
On the other side, its upside down
On the other side, its upside downWhat you need to do
Is change your point of viewTurn it upside down, turn it upside down
Turn it upside down and hold on tight
Turn it upside down, know wrong or right
Turn it upside down, I think youll find
On the other side, its upside down
On the other side, its upside down
On the other side, its upside down
