

Eyes Wide Open

King Crimson

Here it comes, here comes another day
Another decision on the way
Well here it comes, here comes a covered display
Of preferences to make
Well here it comes, here comes a knock on the door
Open it for an opportunity
Well here it comes, here comes another day
For memories to be made Eyes wide open
Eyes wide open all the time 'n there it was, it was a perfect take
And were you asleep or awake
There it was, it was a perfect time
To speak your mind
'n there it was, it was a chance of a lifetime
It flew right by and what did you do?
Well there it was, it was another day
For memories to be made Eyes wide open
Eyes wide open all the time
I've got my eyes wide open
Eyes wide open all the time
Because you never know
What you might see
