

Mess Around

Dr. John

Yeah yeah
Yeah, you all get down, and mess around Ah this is my little style of boogie
It's what you call radiatin', a radiatin'
You know what I'm saying
Yeah everybody go ahead, and get down
I go home and break down You know someone's got that backyard BBQ
Everybody's doin' it baby, something new
We're gonna mess around
Gonna get down, and mess around
Yeah gonna mess around
See that little girl, with the diamond nng
She's surely knows how, to do her thing
She'll know, how to mess around
She'll gonna get down, and mess around
Everybody go ahead and get down
Now I'm gonna play a little piano for you
Ah go ahead, and play that saxophone Go ahead and you take Sally, and I'll take Sue
Gonna do the funky thing, baby, me and you
We're gonna mess around
Everybody get down, and mess around
Everybody go ahead, and get down
You all got to do the mess around You all break down, yeah now
Break down, and mess around
Just gimme that real good thing
Keep doin' my thing, been messin' around
You're doing that funky thing
When you're doing that mess around
Everybody break down
Get down, oh, everybody do it
Go ahead and mess around
Go for that story and get down
I said everybody get down
Everybody do that little mess around
Oh mess around, get down and mess around
