Easy Comes

Thornley

Early morning hits, I found a way to get out of this
Underneath your desk, I carve your name across my chest
I got off my hands, I got on my knees
Now I know I'll pave the way to paint your face with greed
I got up off of my knees, I got up on to my feet
And then I found that I paved the way to pay for your disease
Well, easy comes but here we go again
Just take two of these and call me later on
Everything is cool, you can borrow what you want
I've got the necessary tools to get you through the day
It doesn't matter who you are because there ain't no other way
Go on, go on
Now I spend my days occupied in different ways
Orange afternoons, soap-box preachers and jail tattoos
I got off my hands, I got on my knees
Now I know I'll pave the way to paint your face with greed
I got up off of my knees, I got up on to my feet
And then I found that I paved the way to pay for your disease
Well, easy comes but here we go again
Just take two of these and call me later on
Everything is cool, you can borrow what you want
I've got the necessary tools to get you through the day
It doesn't matter who you are because there ain't no other way
Go on go on
Easy comes easy goes, easy comes and easy goes
Easy comes easy goes, easy comes and easy goes
Easy comes easy goes, easy comes and easy goes
Well easy comes but here we go again
Just take two of these and call me later on
Everything is cool, you can borrow what you want
I've got the necessary tools to get you through the day
It doesn't matter who you are because there ain't no other way
Go on, go on
