You Were Always There

Glenn Hughes

As I look back on the good things in my life
I could count on you to help me make it right
You turned me around, you did the best that you could do
When I think what you said, I'm so glad that I have youYou've been gone for a long time
Don't try to deny it
It's been so long since you were mine
Gotta try to believe in somethingChorus:You were always there to remind me
You were always there to recall
You were always there to remind me
You were always there when I calledI got a notion that the only place to be
Is a place that I love,
Just right for you and me
You gotta go to the desert,
Grab a handful of sand
If the sand runs thru', you
Gotta make some other plansYou've been gone for a long time...You turned me around
You turned my whole life around
