Free Falling

Dante Bowe

Verse 1
Tell me the story when You first saw me what were Your thoughts
Like did You crack a smile did love run wild inside of Your heart?
Talk about the time when I crossed Your mind then did took Your breath away
And as You took me in You were closer than my skin no I never had a better love
So Beyond the four walls and all its routes, I just wanna know You
I still remember Your voice when it called me and I knew right there this was love
And I never lost the heart that You gave me and I never will
Verse 2
What were You thinking when You touched the leper and made him whole
What about that woman who pushed through the crowd just to touch Your clothes
If the friend of sinners is what they call You thatâ€™s what Iâ€™m gonna be
Because my only desire is to be like the king who ransomed me
So Beyond the four walls and all its routes, I just wanna know You
Come fill in this space so I can see Your face I just wanna know You
I still remember Your voice when it called me and I knew right there this was love
And I never lost the heart that You gave me and I never will
Because,
Chorus
Iâ€™m still free falling falling falling oh oh falling
Bridge
So take me higher
Take me further
Jesus Youâ€™re the only one I seek
Take me deeper
Wake up the wonder
Jesus Youâ€™re the only one I seek
