Castle (The Huntsman: Winter's War Version)

Halsey

Sick of all these people talking, sick of all this noise

Tired of all these cameras flashing, sick of being poised

Now my neck is open wide, begging for a fist around it

Already choking on my pride, so there's no use crying about itI'm headed straight for the castle

They wanne make me their queen

They wanna make me their queen

And there's an old man sitting on the throne that's

Saying that I probably shouldn't be so mean

I'm headed straight for the castle

They've got the kingdom locked up

And there's an old man sitting on the throne that's

Saying I should probably keep my pretty mouth shut

Straight for the castleOh, all these minutes passing, sick of feeling used

If you wanna break these walls down, you're gonna get bruised

Now my neck is open wide, begging for a fist around it

Already choking on my pride, so there's no use crying about itCrying about it

Crying about it

Crying about itI'm headed straight for the castle

They wanna make me their queen

And there's an old man sitting on the throne that's

Saying that I probably shouldn't be so mean

I'm headed straight for the castle

They've got the kingdom locked up

And there's an old man sitting on the throne that's

Saying I should probably keep my pretty mouth shut

Straight for the castleThere's no use crying about it

There's no use crying about it

There's no use crying about it

There's no use crying about itI'm headed straight for the castle

They wanna make me their queen

And there's an old man sitting on the throne that's

Saying that I probably shouldn't be so mean

I'm headed straight for the castle

They've got the kingdom locked up

And there's an old man sitting on the throne that's

Saying I should probably keep my pretty mouth shutStraight for the castle

They wanna make me their queen

And there's an old man sitting on the throne that's

Saying that I probably shouldn't be so mean

I'm headed straight for the castle

They've got the kingdom locked up And there's an old man sitting on the throne that's Saying I should probably keep my pretty mouth shutStraight for the castle
