Always in the Past

[Tears for Fears](#)

Money can't change the way you feel
Smoke stains on your fingertips
Made for life is no big deal
When something behind you that just doesn't fitAnd I can't stop thinkin'
Always in the past
No, no, I just can't stop thinkin'
Always in the past
It was always inSmoke screens up at the break of day
Boy, you must have had a lonely night
Oh, did your dreams reveal God's plan?
And did Heaven say you're gonna make it all right?And I can't stop thinkin'
Always in the past
No, no, I just can't stop thinkin'
Always in the past
It was always inWalk those streets paved with gold
You and I, we are one and the same
We've got a whole lot of soulDance those steps of the ancient plague
You can sharpen knives on the famous lives
That were never saved, that were never savedI just can't stop thinkin'
Always in the past
No, no, I just can't stop thinkin'
Always in the past
It was always inI can't stop thinkin'
Always in the past
No, no, I just can't stop thinkin'
Always in the past
It was always in
