

# Love Is The Compass

## Delirious?

I tried to save the world  
But it fell upon my shoulders  
I couldn't stop the sun  
Now it's only getting colder  
Falling down  
Be there for me when I start to drown  
Your love  
It is the compass of my heart  
Your love  
It is the thing that let me start  
I'm gazing at the sun  
Keeps me younger, now I'm older  
But we've only just begun  
Feel Your hand upon my shoulder  
Sing it loud, yeah  
All we need is fire and the cloud  
Your love  
It is the compass of my heart  
Your love  
It is the thing that let me start  
Your love  
It is the compass of my heart  
All I want is  
You are who answers just my heart  
I fell left but I'm alright  
'Cause freedom points me to the light, light  
Let it shine on You  
Jesus, show Your love  
You are the compass of my heart
