Just Another Hog

Nasum

From the highest tower
You pull the puppet's strings
While you command your slaves
Someone is watching youYou're enslaved, you're their slave
They dominate your fate
When all is said, you're a living dead
They dominate your fateAll that massive power
You're just another hog
Sucking up to the master
While feeding from the troughYou're enslaved, you're their slave
They dominate your fate
When all is said, you're a living dead
They dominate your fateYour stink suffocates me
Your stink suffocates me
Suffocates meThey dominate your fate
They dominate your fate
They dominate your fate
They dominate your fate
