

# Drowning

## Langhorne Slim

And I never will know why  
Love will pay no mind to me  
Love always loved the way it sounded in theory  
And I'd kill to be alone  
With the strength to be alone  
Lonely feelings make me sad around company  
Well I'm dedicated and I'm craving someone that i don't know  
In this sea of stupidity I am stuck in the undertow  
Here come the lifeguard  
I'm drowning, she seems so delicious  
I'm grounded with her arms around me  
And I'm, I'm blinded by them ugly fishes

Don't ask me any of your questions  
I won't tell you my lies  
Words deserve to serve the painful penalty  
And it's analyzing just how they're spoken  
Three times my hearts been broken  
Mama, you ain't never told me it's gonna feel like this  
So don't sit back and settle for comfort over pain  
I've been burned by the copper kettle  
I have spit back at the pouring rain  
Lie must gut denial  
Smile at it's melting face  
My insides are defiled  
It's wild baby but i cannot erase

Truth is all a lie and I'm trying lesser everyday  
Death to all that's dying, conditioning and decay  
Ticktock in a pitter-pattern  
Balls drop cock saluting Saturn

Darling I just wanna shoot a gun.
