# Ten Rules

## Byron Zanos

Rule One: No matter how old you are
you best believe loves a game
never really ends
if you really want

Rule Two: I got nothing to lose
It's a silly thing to say
you can lose ten times and your honesty

Rule Three: Means a whole lot to me
Now actions speak louder
but words better believe
If you can't say I love you
how can I expect you to ever say I do

You got
to follow
to follow
to follow the rules of the relationship

Rule Four: Even if you want more
Never show any weakness
Or they'll be showing you the door

Rule Five: If you think someones lying
Then you are probably right
and you are wasting your time

Rule Six: Never let yourself slip
If your comfortable
you'll get caught in the mix
There's always someone
waiting to take your place by the side now
There's always someone next inline

You got
to follow
to follow
to follow the rules of the relationship

Seven: Ain't simple
try never to lie

Eight: is don't ever let them see you cry

Rule Nine: The grass is always greener on the other side
But don't let that make up your mind

Rule Ten: There will always be fights
No way around it
But here's some real good advice

You got to listen and learn
love is compromise
there will never be
only one right side

Never sleep
Angry

I can't sleep
Angry

You can't sleep
Angry
