

# I Am Water

## Autumblaze

There are days I feel as tired as the oldest man  
An empty shadow in the park  
I am a raindrop swimming on the window pane  
It's always the same dull pain I'm just here to drown  
Before I go to sleep I try to think of something good  
A permanent ocean and you [Chorus:]  
I am water  
You only have to dive into me  
I am water  
My mute heart - a singing wave  
Tomorrow is another chance to say nothing again  
Someone could find me in the park  
Am I just here to drown? [Eldron, 3.9.2001]
