Waiting On The Stairs

Pela

I had a sideways stare like a signal flare
she? s waiting on the staircase hey, hey!
you got skin like porcelain, skin like porcelain
tips me like a domino on some days
but we could jump off of a cliff into a wedding ring
and if the heat pipes are shut off
our walls would never stingyou got a small town stare like a signal flare
i? m hiding in the bathroom hey, hey!
skin like porcelain, skin like porcelain
poisoning me on most dayswe should jump off of a cliff into a wedding ring
and if the heat pipes are shut off
our walls would never sting
they? d begin to singi can? t stand that record
i can? t stand you breaking down
i can? t stand that record
i can? t stand you breaking downcome sit next to me
i am not your enemy
come sit next to me
i am not your enemy
come admit it to me
have i become your enemy?
come admit it to me
that i have become your enemy
