There Is No 'I' In Scene

Captain Everything!

Apathy generally
Isn't hard to find
Pick a song, sing along
What is on your mind today?
We went down to
See the show
Acting like we're
In the know
Oh no
We weren't even there
Is anyone out there?
What does it do for you?
What does it do for you?
What does it do for yourself?
Someone else?
When will it be through for you?Read all about
It's where to go
Just sit at home
Waiting for the wind to blow
Take the ideology
A clique for you
A clique for me
Oh no
We never got there
Is anyone out there?
What does it do for you?
What does it do for you?
What does it do for yourself?
Someone else?
When will it be through for you?Is anyone out there?
Is anyone out there?Do for you
What does it do for you?
What does it do for yourself?
Someone else?
When will it be through for you?
What does it do for you?
What does it do for you?
What does it do for yourself?
Someone else?

When will it be through for you?
