

# Love Made Me

## Vixen

Our conversation ends too soon  
You grab your coat and leave the room  
My heart dissolves on to the floor  
Our world divides, we don't talk anymore And I still remember when we first met  
It was on a night like this  
The moon was shining for you and me  
When I stood alone I'd be betrayed by your kiss Love made me blind to the truth  
Love made me crawl, I should've stood up to you  
Love made me cry out your name  
So what's so good about love when it hurts you this way Cold lurking nights, in the days there were tears  
They held us captive and chained to our fears  
Is this the dream you've been searching for  
Is this the love that I don't want anymore Love made me blind to the truth  
Love made me crawl, I should've stood up to you  
Love made me cry out your name  
So what's so good about love when it hurts you this way Somewhere in a scene you were holding me  
We both never fade  
But the hope it sounds on the battleground  
Nothing's gonna change Love made me blind to the truth  
Love made me crawl, I should've stood up to you  
Love made me cry out your name  
So what's so good about love when it hurts you this way Love made me blind to the truth  
Love made me crawl, I should've stood up to you  
Love made me cry out your name  
Love made me hold Love made me blind to the truth  
Love made me crawl, I should've stood up to you  
Love made me cry out your name
